Education

Bennett University - The Times Group, Greater noida 2023-2027
B. Tech in Computer Science
(Specialization: Cybersecurity)

Paras public school 2023
– Higher Secondary

Rahul public school 2021
– Higher School

Certifications

- Certified Ethical Hacker (CEH v13)
EC-Council
- Introduction to Cybersecurity Tools & Cyberattacks
IBM
- Explore Machine Learning using Python
Infosys
- Project Planning: Putting It All Together
GOOGLE

Skills

Technical Skills

Penetration Testing

Cybersecurity

Ethical Hacking

Networking

AI/ML

Tools

Nmap

Burp Suite

Metasploit Framework

OWASP ZAP/Nessus

SQL Map/Hydra

Programming - C/C++ , Java (Basic), Python, Shell Scripting

Professional Skills - Public Speaking, Leadership, Team Management, Marketing

About me

Cybersecurity-focused Computer Science undergraduate with a strong foundation in penetration testing, vulnerability assessment, networking fundamentals, and web application security. Also interested in artificial intelligence and machine learning, with growing experience in building AI-driven solutions and exploring intelligent systems. Passionate about ethical hacking, secure technologies, and applying AI to enhance modern cybersecurity and software solutions.

Projects

VerifEye

Browser Extension

- A Chromeextension that enhances user security by identifying onlinethreats and protecting against them by injecting a script into the webpage.

White Crow

Web Applications security scanner

- A comprehensiveweb vulnerability scanner with asleek desktop GUI, designed for professional security testing and penetration testing.

Sakha Sampark

Serverless chatting system

- A serverless, decentralized chat platform usingWebRTC to enablesecure communication with complete privacy and confidentiality.

Achievement

Top 50 Institutional Finalist, Smart India Hackathon (SIH) 2025

Certified Ethical Hacker (CEH) – (2026)

- Gaining hands-on experience in penetration testing, vulnerability assessment, and network security
